EDUCATION

Shri Govindram Seksaria Institute of Technology and Science
Bachelor of Technology in Computer Science & Engineering (CGPA: 8.39)

Indore, Madhya Pradesh
September 2023 – July 2027

Christian Eminent Higher Secondary School
PCM Stream XII Board (89.6%)

Indore, Madhya Pradesh
April 2021 – March 2022

EXPERIENCE

Impetus Technologies India Pvt. Ltd.
AI/ML Intern

Indore, MP
Aug 2025 – Nov 2025

- Trained and tuned **ML/DL models** (linear & logistic regression, KNN, ANN/CNN) on Iris, breast cancer datasets, achieving **98.8% accuracy** and boosting accuracy to **99.5%** using **PCA** on wine dataset.
- Implemented **OCR pipelines (Easy OCR, Doctr)**, achieving **BLEU 98.9**; built GenAI solutions (**customer agent, prompt validator, Document AI**) using **LangChain, LangGraph, and Groq**.

PROJECTS

SachAI | *Python, Flask, LangGraph, LangChain, Groq API, Llama 3, Tavily, Pydantic*

Aug 2025 – Sept 2025

- Implemented the **5-stage Claimify claim extractor** (Metropolitansky & Larson, 2025), achieving **91.8% sentence-level accuracy** in factual claim detection.
- Built SachAI, a scalable multi-agent fact-checker that deconstructs complex text into verifiable claims, runs parallel verifiers for real-time evidence retrieval, provides full evidence trails for transparency, and uses **Groq Llama 3 70B** for high-speed evidence scoring.

Customer Support Assistant | *Python, LangGraph, LangChain, Groq, Streamlit, SQLite*

Aug 2025 – Oct 2025

- Developed a high-speed **RAG-based AI assistant** using **LangGraph** and **Groq**, achieving context-aware, knowledge-grounded responses through an intelligent state machine that classifies user intent and manages off-topic or harmful queries.
- Delivered a full-stack conversational web app with **Streamlit UI** and **SQLite** checkpoint, enabling persistent multi-turn memory and ensuring reliable user interaction continuity.

Document AI | *Python, Streamlit, LangChain, Groq, Tesseract, Poppler*

Oct 2025 – Nov 2025

- Engineered a full-stack Document AI pipeline integrating **Tesseract, Poppler, and tabula-py** to automatically extract text, tables, and key-value pairs from both scanned and digital PDFs.
- Leveraged the **Groq LLM** via **LangChain** to parse unstructured data into structured JSON and delivered a complete **Streamlit** application for file upload, visualization, and export (JSON/Excel).

TECHNICAL SKILLS

Programming Languages: C++, Python, SQL

Libraries/Frameworks: Scikit-learn, TensorFlow, Keras, LangGraph, Flask, Streamlit, Selenium, LangChain, FAISS, ChromaDB

Databases: Firebase

Tools/Platforms: Git, VS Code, Tableau, Jupyter Notebook, Click Up, Jira

ACHIEVEMENTS

Competitive Programming: Achieved **Knight rank (1849)** at **LeetCode** and **1470+ rating** at **CodeChef** by solving over **350 C++ algorithmic problems**.

Coding Challenge: Secured **8th position** out of **5,000+ registered participants** in **CodeClash: August Arena**.

Academic Excellence: Achieved **97.84 percentile (AIR 25,008)** in **JEE Mains 2023** among 1.3 million candidates.

Hackathon: Secured **Top 15** ranking out of **1000+ registered teams** at **Hack Indore 3.0**.

Certifications: Oracle Cloud Infrastructure 2025 Certified **Data Science Professional**, Oracle Cloud Infrastructure 2025 Certified **Generative AI Professional**, and **Deloitte Data Analytics Virtual Internship**.
